505 **Baltimore & Ohio** steel switch lock with script ADLAKE stamped on cover and B&O stamped on case, includes 12-inch chain. Weathered and tarnished but would work well with a proper key (not included).

506 ***California Zephyr*** silver "Century" pattern flatware set of knife, fork and spoon, all three marked *CZ*. The fork and spoon are made by International Silver, no manufacturer visible on the knife, all in excellent condition, knife blade is fixed solidly in the handle.

507 *CZ* stainless steel 6-1/2x36" "D&RGW" letterboard from *California Zephyr* car (specific one unknown). 510 **Chicago Rock Island & Pacific** silver hollow ware International Silver 10 oz. double-handled sugar bowl, mint condition double stamped with "Rock Island Lines" on bottom, and the *"Golden Rocket"* on the side. A train that never was, this joint project was planned by CRI&P and SP for Chicago to Los Angeles service in 1946. Rock Island's cars, including diner *El Comedor,* were finished by Pullman-Standard in 1948 and assigned to the *Golden State*. **MIN BID $100**

511 **CRI&P** another *Golden Rocket* piece, a silver framed International Silver mustard pot double marked with "Rock Island Lines" stamped on bottom and *"Golden Rocket"* on lid. Frame is very ornate and in excellent condition but original glass liner has been replaced with a shot glass that still is attractive enough for display. **MIN BID $100**

512 **Colorado & Southern** steel switch lock with ADLAKE stamped on cover and C&S on case, with 12-inch chain and brass C&S RY key with 2488 stamped on reverse of hilt. Lock and key work well.

White china with single maroon red band on rim edged in gold with another gold stripe on inside edge. "Rio Grande Mainline thru the Rockies" on top edge is white, maroon and gold. A very attractive design made by Lamberton China. **MIN BID $30**

516 **D&RGW** 4-1/2x15" sheet metal "Grande" orange sign with black one-inch lettering "Rio Grande Zephyr Boarding 7:00 A.M." made at Burnham shop for use at Denver Union Station. All lettering clear and intact, as well as most of the orange background. **MIN BID $60**

517 **D&RGW** short globe brakeman's lantern by Dressel, definitely a salvage project or parts source. Lid has clear stamped D&RGWRR on rim but dome top has good sized dent, flat vertical frame is bent and twisted but not beyond repair for someone who likes to do light metal work. Tin plating in good condition, comes with a fuel pot and burner, no globe.

518 **D&RGW** nine-inch diameter reproduction of the "silhouette" service plate used on the original Rio Grande *Propector*, one of 750 pieces made by Sterling China in 1981 for the Intermountain Chapter of the National Railway Historical Society with the old prospector and his burro on the front and a brief history of the train on its back. While not as rare as the 1941 originals, these are seldom offered for sale. **MIN BID $30**

519 **Dollar Steamship Lines** silver bowl measuring 6-1/4" in diameter and 2-1/4" tall and made by Gorham, typical of the heavy hollow ware used by railroads and steamship companies. Bottom stamped, used but no dings or dents, a quick wipe will make it ready for display.

520 **Great Northern** 7x5-1/2" "Mountains & Flowers" pattern oval china plate manufactured by Syracuse, white with reddish flowers and light gray background, back stamped "Great Northern Ry."

521 **Missouri Pacific** perpetual calendar made by Permanent Sign & Display Co. of Reading, Pennsylvania, tin 13x19" green with orange lettering, steam locomotive lithograph and complete set of month and date cards, which show age and wear, and original hanging chain. **MIN BID $150**

522 **Norfolk & Western** heavy, shop-made 17" heavy double headed wrench made of 1/2" steel, "N&W" stamped in the center of one side. Has some rust spots and the usual steel finish but does not

show a great amount of wear. In later years, safety concerns saw many of these home made tools removed from service and scrapped, so this is collectible.

523 **Northern Pacific** long spout oil can 28" high used by engine crews and shop workers to oil around locomotives and machinery, painted black and complete with thumb control valve, screw-on filler cap with chain. NPR is stamped in the middle of the handle, an unusual location, no manufacturer's markings but does not appear shop made. A couple of small dings and dents show its age and will need some cleaning.

524 **NP** short globe brakeman's lantern ADLAKE Kero model, marked "NP RY" in small letters near lid hinge, with fuel pot and burner and wick raiser in good condition except for the bail and base ring which need a little attention. Body is free of dents and plating is good, unmarked red globe free of chips and cracks.

525 **Pacific Great Eastern** steel switch lock with script form ADLAKE stamped on cover and PGE on case, fairly new issue and still clean, no chain. Would work well with a proper key (not included).

526 **Pullman** conductor's uniform made by A.G. Meier & Co., Chicago, consisting of dark blue three-button jacket, vest and trousers have been well taken care of. Jacket and vest have all the proper Pullman buttons and the left sleeve cuff has three gold five-year service stripes.. No sizes are marked, and the jacket has possible fading across the shoulders where it was hung (This could be a heavy layer of dust). **MIN BID $75**

527 **Rio Grande Ski Train** 8-1/4" china plate, all white with vertical medium blue stripe on one edge of rim. Stripe is trimmed in black and broken with "Rio Grande Mainline Thru the Rockies" style emblem, which reads "SKI TRAIN - Rio Grande - DENVER-WINTER PARK." Reported to be a manufacturer's sample for possible use on the Ski Train. This piece may be a "second" as the emblem is slightly tilted and the manufacturer's marks on the back are very faint.

528 **St. Louis - San Francisco** brass switch key marked FRISCO on hilt and ADLAKE on reverse. Top of "SC" is worn, but overall nice markings and just the right amount of wear.

529 **Southern Pacific** brass switch key marked SPCO CS-4 on hilt with ADLAKE "S" on reverse, nice patina with slight wear.

530 **SP** short globe ADLAKE Model 250 Kero brakeman's lantern. SP CO stamped on dome top and serial 49950 on rim of lid, with fuel pot, burner and wick raiser, in good condition with the exception of surface rust and dirt. Globe is an unmarked medium blue ADLAKE Kero.
